ODYSSEY

Learning Music With Synthesizers

This 213-page book is currently in use at hundreds of schools across the country and is the most widely accepted text on synthesizer applications. Written for use by any high school class. The first section stresses musical and physical concepts and the second section deals with learning how to use the synthesizer. The final section explores every basic music concept, using the synthesizer to reinforce the learning process through experience and experimentation.

PROTECT YOUR ARP SYNTHESIZER WITH A CUSTOM-MADE ANVIL ROAD CASE.

An ARP synthesizer is the best synthesizer on the road today. And it deserves the kind of care any fine musical instrument should receive. Over the past several years, ANVIL road cases have become the industry standard for professional equipment transportation. Through a special arrangement with ANVIL, ARP now offers its customers ANVIL road cases designed exclusively for the ARP Omni, ARP Axxe, ARP Pro/DGX, ARP Odyssey, and ARP String Ensemble.

Each of these rugged cases feature steel-reinforced plywood construction, ball corners, recessed handles and latches, and thick foam lining for the ultimate in protection. Whether you're playing a gig down the street, or half-way around the world, ANVIL cases keep ARP synthesizers looking good, and sounding great, for years and years.

You can order these custom ARP synthesizer road cases from your ARP dealer, or direct from ARP Instruments. Simply add freight charges on the order blank by finding your shipping zone in the table below.
